Venue: Lackham House, Wiltshire College, SN15 2NY
Places available: 15

Fee/s:	NfP Members	£45
	Non-Members	£75

This workshop is suitable for: Nurses

WORKSHOP OBJECTIVES

An opportunity to network with colleagues refresh your knowledge of the UK Immunisation Schedule and to share/discuss common problems and current developments in this important area of General Practice work - our trainer will keep you on your toes by testing your knowledge and understanding throughout the session. The training is suitable as an update of the National Minimum Standards for Vaccination core curriculum.

This session is based on current PHE training recommendations.

Learning Outcomes

- Revise your knowledge and understanding of the twelve elements of the core curriculum for vaccination and immunisation.
- Revise the UK Immunisation schedule from pre-birth to later end of life, with the focus upon recent changes and seasonal vaccination.
- Identify resources to assist in delivery of the immunisation service in general practice setting.

Topics Covered

- The immune system
- Different types of vaccine and how they work
- National Immunisation Schedule – what is new and what might change
- Where to get advice in complex cases
- Vaccine storage and the cold chain
- Side effects
- Anaphylaxis

This session is supported by
